

COMMUNITY-LED HOUSING TRACK

Join us at ISHF 23! Promoting and enabling community-led housing is key to guaranteeing the right to adequate housing and the right to the city, and to ensuring that residents are at the core of the processes that shape their habitat and cities.

The sessions provide opportunities for peer learning, knowledge exchange and project documentation, increasing the visibility of collaborative housing solutions among social and public housing providers, citizens and public authorities alike.

Past editions have proven successful in bringing together a variety of actors working to promote resident-driven, permanently affordable and sustainable housing solutions.
